DATAWATCH

US Physician Practices Spend More Than \$15.4 Billion Annually To Report Quality Measures

Each year US physician practices in four common specialties spend, on average, 785 hours per physician and more than \$15.4 billion dealing with the reporting of quality measures. While much is to be gained from quality measurement, the current system is unnecessarily costly, and greater effort is needed to standardize measures and make them easier to report.

he number of quality measures directed at US health care providers

tices in terms of understanding the measures, providing performance data, and understanding

Document Management

Medical practices are far from paperless.

Faxing, scanning, stacking and organizing is the norm.

How much time does your team spend managing the fax machine or e-fax today?

Tired of your EHR working against you?

You succeed
with
the right
partner.

Networks are
constantly learning
to let you outsource
work at scale

A NETWORK DESIGNED WITH YOU IN MIND

- ① Efficiently document care to free yourself up
- ② Succeed under any reimbursement model
- ③ Coordinate care seamlessly

The full picture of driving clinical efficiency

PRE-VISIT

- ✓ Gaps in care identified
- ✓ Outreach performed

VISIT

- ✓ Necessary information surfaced in the workflow
- ✓ Efficient documentation
- ✓ Engaged in the moment of care

POST-VISIT

- ✓ Automated results delivery
- ✓ Care coordination
- ✓ Fax management

ONGOING

- ✓ Easily comply with government programs
- ✓ Maintain a desirable work/life balance

Applying technology and the principles of comparative advantage to manual processes drives down costs

Document Management

**200 hours
saved per
provider**

**5.9 minutes
saved per
visit**

Authorization Management

**\$7.50 per
manual prior
authorization**

**0.5 FTE
of work per
provider**

Care Management

CCM and TCM built into the EHR

The full picture of maximizing revenue

PRE-VISIT

- ✓ Automated appointment reminders
- ✓ Automated eligibility verification
- ✓ Online access for patients

VISIT

- ✓ Comprehensive self-pay tools
- ✓ Gain insight into outstanding patient balances

POST-VISIT

- ✓ Automated work such as claim submission, tracking, remittance processing, and patient outreach

ONGOING

- ✓ Detailed reporting capabilities
- ✓ Spend less time on phone calls with payers
